NARRATIVE

Which is the worse memory that you remember?

One of my worst memories is when I had to go to hospital the day of my birthday.

I was on holidays with my parents and some friends in Salou four years ago and my parents gave me my first mobile phone.

At lunchtime, we went to a restaurant on the beach. I ate 'paella' and I had a very big birthday cake. I was very excited. When we left, I forgot my phone. I run to the table but I fell down and I cut my arm with a broken glass.

In the end, we had to run to hospital and I got stitches. **It was the worst day of** my life.
